

What do you think are the three most important things that the RLWD does?

Strength

Flood damage
reduction

- Ditch outlet stabilization
- Streambank stabilization
- Water quality testing

~~Don Schmitz~~

Flood control
Water Management
alge control

Manage Clwr. Cty.
ditches - "Judicial"
Water retention
projects

Pine Lake outlet
dam

- Water Quality
Monitoring
- Stabilization Projects
- Impoundments +
Water storage projects

3 most important things

① Ditch Maintenance

② Issue Permits for
drainage + culverts

③ Flood control

1. Monitor water quality
+ how it
management of water
education

Past noon

What does the watershed need of RLWD in 2024?

People
work
together

Not sure if RLWD
has this yet but
North TSA has a
Survey boat to take
shots along rivers +
lakes. North TSA has found
some new Water model tools
that they said is really helpful
talk to Logan Handysid for more info

Get the Mud River
Restoration Done.
Started.

River

Banks

~~Stable~~
Stable

Help improving
erosion

What are the strengths of the RLWD?

Strengths ~~Don Schmitz~~

County & Watershed
working Together

Better
Lunch

Local Input of
the Establishment of
Water Policies

Impoundment

Board members
who have a
vested interest
in projects

They do well
at preserving the
waterways and
managing erosion

Strengths

Surveying for
land owners
needs -

Permitting for
landowner needs

Strengths

Partnerships w/
other organizations +
having the engineers to
work on ~~the~~ bigger
Stabilization Projects

What are the best things that could happen in the watershed district moving forward?

Ditch
maintenance

Expanding
Problems to
Public

Controlling
~~erosion~~ erosion

Best things moving
forward

Get more control of
Agassiz flood
control. Control
the Dam operation

Continue preserving
what we have and
reduce pollution

What are the weaknesses of the RLWD?

Weakness Dan Schnitz

Working against
each other

John Gunnarson

1. Keep flow records
2. Enforce rules
3. Serve a good lunch

Strengths
coordination of factors

Weakness
resentment by conservatives

Best Things
Average flow every year

Unsound application
of policy.

(To subjective, not
objective.)

Hire more Engineers

Weakness

Having to try
Satisfy up stream
& Down stream
land owners
